

“Hundred Ways”

1st March 2010- 12th March,2010

Week one and two , term 3

Nursery Learner Profile Focus: Caring, Communication, Risk Taker

Personal and Social Development

Three new friends have joined our Class –Isabella, Eun Jae and Si Heon. We love our new friends.

We are continuing to practise using confident greetings with good eye contact.

We are also starting to use our surnames during introductions.

Unit of Inquiry- Central Idea- 1.Friendships enhance our lives.

We have been using the phrase
“I feel sad when you fight with me”
I feel happy when you play with me.”

Creative Awareness

We painted a big painting on the ground and played with shaving cream. We collected objects from the street –rocks, tiles, bricks. We used these things to make a sound table.

Nursery Rhymes(Hand and finger strengthening activities):

This is the way the lady rides..
Do your ears hang low.
One day a hand went walking.

Mathematical Awareness/Puzzles/Construction

We have been working with measurement.-weight.

We have scales in our shop.

We have scales in our nurses station.

Tristan made money for the shop.

Knowledge and Understanding of the world- Preparation for The Lantern festival festivities.

1. We made lanterns
2. We all wrote our Chinese names on our lanterns.
3. We played a Chinese Animal Zodiac matching game..
4. Story: How the animals were chosen.
5. Lantern races.
6. Traditional lantern festival foods.

Mandarin
Yuya and Alex taught us some words in Mandarin.

Physical Development

Gross Motor-Obstacle course
 Galloping, Hopping, Soaring, Jumping
Fine motor-cutting, drawing, tracing

Language-Oral

We have new Anthony Browne books.
Will the Wimp has grown up. Anthony Browne draws funny pictures.

Language and Literacy-Writing

We have written up a Science experiment. We learnt a new word called hypotheses.

Language and Literacy-Reading

We have been sounding out words for Labelling our shop.

Unit of Inquiry 2:

Central Idea-Through play we express our ideas and new understandings.

The hospital visit inspired some inquiry questions. Alex wanted to know,

We learnt about what's inside an ear and why we have ear wax. We played in a giant sized ear, climbed along the ear canal, tapped on the ear drum, sent a message along the three little bones, around the cochlea, along the auditory nerve and to the brain.

We made model ears.

Unit of Inquiry 3:

Central Idea-All living things change

We are collecting seeds from our fruit. Planting seeds. Watching potatoes grow in water-watching roots grow.

Watching floating seeds.
